

### Features

- Medium to high volume In-line system
- Paper thickness sensor
- Auto start / stop function - offline
- 200 form output catch tray
- Easy jam release system
- Lockable fold plates
- Optional Vertical Stacker
- 180 degrees print rotation **MUST** be specified to allow for the correct paper orientation to the sealer. (This is a selectable option using the standard Windows driver.)
- Compatible with HP, OKI, Lexmark, Samsung, Kyocera (*Please check with us for suitability*)

\*\* The Kyocera Option is the only laser printer that can produce 'in-line' with duplex, therefore all folds are available with this machine  
 \*\*\* 'Print Only Mode' is not required if using the Kyocera Printers.

The Mailfinisher 4300TN is provided with a tray management cabinet System and High Capacity Auto-Extending Output Conveyor as standard, providing a dedicated floor standing system with easy continuous unloading of up to 500 sealed forms.

The MF4300 system incorporates lockable fold plates and an easy jam release system with easy access for the operator.
