

Features

- High volume in line system
- Tray management cabinet
- High capacity vertical stacker as standard (800 sealed forms)
- Lockable fold plates
- Easy jam release system
- Upto 2,000 Pressure Seal Forms infeed
- Can be used as an offline machine
- Fold and seal in one operation
- Dedicated stand alone system

Options

- Print Rotation Solution

** The Kyocera Option is the only laser printer that can produce 'in-line' with duplex, therefore all folds are available with this machine
 *** 'Print Only Mode' is not required if using the Kyocera Printers.

The Mailfinisher 6600 is a high volume in-line system which is interfaced with a compatible laser printer which feeds the MF6600 directly, the forms are printed, folded and sealed in one single operation, therefore speeding up the processing and making it easier for the operator.

The MF6600 is provided with a Tray Management Cabinet System and High Capacity Vertical Stacker Output Unit as standard, providing a dedicated floor standing system with easy continuous unloading of up to 800 sealed forms in sequence.

Mailfinisher 6600

Online Demo
