

Features

- High Volumes
- Easy to use
- Four roller seal unit
- Lockable fold plates
- Manual Seal
- Adjustable Processing Speed

The Postmate 6 is a high volume easy to use stand alone high speed pressure seal machine. With an in-feed capacity of 800 pressure seal forms, and a four roller seal unit. The Postmate 6 has a processing speed of 9,000 forms per hour. Bespoke folds are also available thanks to the easy to use lockable fold plates.

The processing speed can be adjusted to suit the operating environment, with a manual seal option allowing the operator to process an individual or damaged form, removing the need to reprint.
