

Mailfinisher LJ4300

This is the online version of the Postmate 3, and is compatible with all of the HP LJ4000 range of printers. It can also be detached from the printer to use as an offline machine. With processing speeds of up to 3,300 forms per hour online, and the option to add a conveyor and cabinet with shelving for extra paper trays, this is the ideal machine for all types of print to mail pressure seal applications.

Changing fold types is quick and easy, and the use of Friction Reverse Roller (FRR) technology ensures that paper misfeeds are minimised.

The Mailfinisher LJ4300 is the perfect online solution for internal payrolls of over 5,000 employees.

Features

- ▶ Auto Start/Auto Stop functions
- ▶ Paper thickness sensor
- ▶ User-friendly interface to control features such as batch counting and delayed processing
